‘Adoptions, contractor had been instructed to proceed with the remedial works to the pumping station. Inspections completed of all foul and surface water manholes on the estate with STWA. A list of remedial works will now be issued, by STWA, and once received will be actioned. Once completed STWA will re-inspect and normal procedure is for the sewers to be put onto 12 months maintenance, and following a final inspection, be adopted. As the sewers have been in the ground for 10 years will try to get STWA to adopt without the 12 month maintenance period, but this is up to them. RBC have confirmed the position of the NEAP (to be as per the Masterplan) to the open space between Whitefriars Drive and Gerrard Road and the Landscape Architect has been instructed to design the play area, after which the adoption can proceed.’

Borough Cllr Stokes felt that a planning review should be held for the play area due to the length of time that had passed.
